

Claims

[c1] What is claimed is:

1. An adapter which can shield an end of an antenna terminal welded on a wireless LAN card, including:
a wireless LAN card; and
a bracket fixed on the wireless LAN card, the bracket including:
a base plate having an aperture for positioning an antenna terminal; and
a mask extended from the base plate for substantially shielding an end of the antenna terminal welded on the wireless LAN card inside the mask.

[c2] 2. The adapter of claim 1 wherein the bracket further includes two fixing components extended from the base plate for firmly positioning the bracket on the wireless LAN card.

[c3] 3. The adapter of claim 1 wherein the mask is shaped along with the base plate and extended from the base plate.

[c4] 4. The adapter of claim 1 wherein the mask further includes a locating element for positioning the mask on

the wireless network LAN card.

- [c5] 5. A bracket which can shield an end of an antenna terminal welded on a wireless LAN card, including:
 - a base plate having an aperture for positioning an antenna terminal; and
 - a mask extended from the base plate for substantially shielding an end of the antenna terminal welded on the wireless LAN card inside the mask.
- [c6] 6. The bracket of claim 5 further including two fixing components extended from the base plate for firmly positioning the bracket on the wireless LAN card.
- [c7] 7. The bracket of claim 5 wherein the mask is shaped along with the base plate and extended from the base plate.
- [c8] 8. The bracket of claim 5 wherein the mask further includes a locating element for positioning the mask on the wireless LAN card.
